 jaredjms80@yahoo.com

EXPERT IN ALL STYLES OF ARCHERY

- Compound with release or fingers
- Olympic Style
- Traditional
- Bowhunter

As one of New York's top archery coaches, I have the ability to help you meet your archery goals. Whether you are a five year old looking to fire your first arrow and pop your first balloon or an aspiring olympic archer, I can help make it happen. Last year, my top archers won over 15 state and National level titles. I have been involved in archery for over 25 years and during that time I have left no stone unturned in the search for more knowledge. From rebuilding bows at age 10 to over 100 first place wins during my tournament career, and finally learning the National Training System(NTS) directly from coaching legend and US Olympic coach Kisik Lee at the US Olympic training center, I've covered it all. I especially enjoy bringing young archers into the sport and helping them see the joy archery can bring.

One of my younger archers
